

POWERED BY
SANDRINGHAM...
HELPING YOU BUILD
A PROFICIENT
& PROFITABLE
CLIENT PROPOSITION

ENABLE DASHBOARD

Enable

Everything you see in the Enable dashboard is in real time so you will never have any doubt about what is there, and what is not.

Activities

These are 'jobs' to complete. They can be set by head office or by yourself. For example, things like annual reviews trigger a series of activities like book a meeting, do a review or a follow up is required.

Alerts

This covers any system based issues – have you any clients who's valuation has failed? Have you any clients with investments that are outside their risk tolerance?

Fees

A quick glance of this gives a Partner their fee income, and their expected fee income for the year to come. Clicking through gives a full case by case breakdown to the penny.

Sandringham Partners use our Enable back office technology for every aspect of their business activity. Whether it be reading the latest bulletins, recording individual cases or forecasting their business income, Enable is central to the process and has been designed by advisers for advisers. The central goal of our information technology is to remove manual inefficiencies from your business. Enable provides all advisers with a simple and speedy process to record their advice, and monitor their clients assets. Your dashboard controls and reports all aspects of a modern advisers' business and presents it to you in real time.

What is more, Enable links seamlessly with our core platform from Fusion Wealth. No need for re-keying cases from platform, to back office. Client information and policy details flow between our key systems with immediacy and accuracy.

The screenshot shows the Enable dashboard interface. At the top, there's a navigation bar with 'Home', 'Help', and 'History'. Below that, a sidebar menu lists various sections: Clients, Research, New Business, Fees, Activities, My Documents, Marketing / Mail, Compliance, Providers, Introducers, Reports, Members, Admin, Tickets, and Logout. The main content area is titled 'You are in: My Home' and includes a welcome message for 'Tim Grey' with the last login time '22-Jun-2016 7:44 PM'. The dashboard is divided into several sections: 'My Activities' (3 activity(s) due today), 'My Alerts' (3 case(s) successfully valued, 435 case(s) added by remuneration, Unipass certificate reminder, 3 case(s) with risk rating issues), 'My Totals' (11 clients, 8 cases written, 0 RIS in network, 0 members), 'My Fees' (YTD expected income: £1,250.55, YTD received income: £10.06, YTD average case size: £156.32), and 'My Tickets' (0 unread, 0 open). A 'Compliance' section on the right shows 'Cases & File Checking' (1 case with outstanding issues, 66.7% passed), 'CPD' (not updated in 28 days, no goals set, latest bulletin not read, SPS not uploaded), and 'Compliance Outputs' (outstanding requirements).

Compliance

Compliance is core to Enable and this section provides you with clear visibility of all compliance related events.

Here you can see the outcome of recent case checks along with any cases that need further action.

You'll also get handy reminders to review bulletins or help guides you may have missed. Clicking through and reading the documents counts as relevant time towards your annual CPD requirements.

If you've read through everything in this booklet, on our website, or perhaps you've met with a member of our team, and know Sandringham is the right choice for you, your clients and your career why wait any longer?

Simply download and complete the application form and the Statement of Honesty, Integrity and Reputation form at <http://www.yourfinancialpartnerforlife.co.uk/talk-to-us/join-us/> and return them to the following address:

Sandringham Head Office
5th Floor
30 Market Street
Huddersfield
HD1 2HG

It really is that simple to start reaping the benefits of being a Sandringham Founding Partner.
